

PROUDLY MOVING OUR NATION'S AGENDA FORWARD.

KMS Solutions, LLC, is a technical management/solutions company that specializes in engineering, analysis, and cybersecurity.

Founded in 2005, KMS is a certified small business with over a decade and a half of experience supporting the Department of Defense as well as many other departments and programs critical to our Nation's security and well-being.

KMS's multi-location presence across the United States and our knowledge, experience, and capabilities allow us to work closely with our government clients to assure mission success.

KMS

SOLUTIONS, LLC

**STRONG CUSTOMER
SUPPORT AND
PROVEN
PERFORMANCE.
WE DELIVER ON
OUR COMMITMENTS
EVERY DAY.**

KMS VALUES

R.A.I.L.S. are the guiding principles and our fundamental beliefs that consistently guide our behavior. These values are represented in everything we do:

RESPECT - Our interaction with colleagues, peers, customers, and others is marked by respect and honor.

AUTHENTIC COMMUNICATION - We share ideas, thoughts, and concerns with our clients and partners in the most authentic manner.

INTEGRITY - We uphold high ethical standards and honor our commitments.

LASTING RELATIONSHIPS - We are focused on forging strong, long-term relationships with clients and associates.

SUSTAINED EXCELLENCE - We consistently deliver to those we serve and continually work to improve our performance. We are committed to empowering our people, building our brand, and supporting our communities.

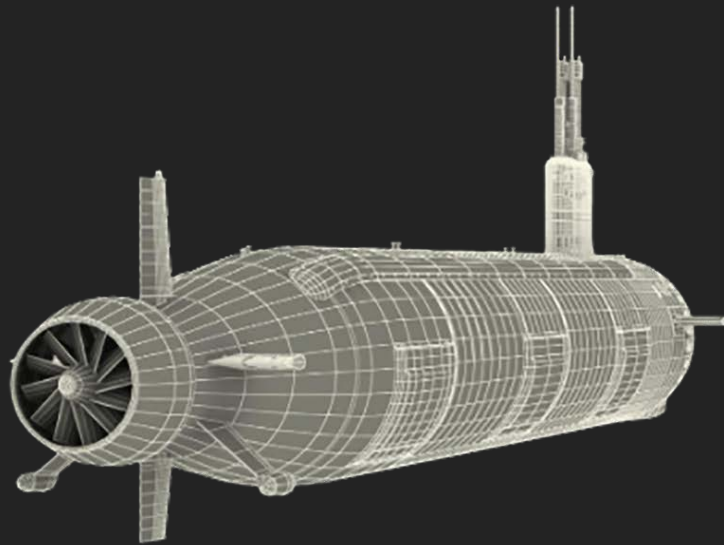

KMS CAPABILITIES

KMS Solutions, LLC, maximizes a unique and proven talent pool of dedicated and innovative individuals to create specialized, multi-disciplinary, expert teams who are dedicated to our customers and their mission.

Entirely responsive to our customers' needs, we are consistently providing our teams with opportunities for training and growth in anticipation of future customer needs and to position ourselves to support new and emerging requirements.

KMS LOCATIONS

- Newport, RI
- Alexandria, VA
- Norfolk, VA
- Melbourne, FL
- Bangor, WA

SERVICES

- Cybersecurity and Information Technology
- Systems Safety Engineering
- Reliability, Maintainability, and Availability Engineering (RMA)
- Systems Engineering and Technical Assistance (SETA)
- Facilities Operations
- Research, Development, Test, and Evaluation (RDT&E)
- Environmental Qualification Testing (EQT)
- Range Development
- Program Management
- Logistics Engineering and Configuration Management
- Prototyping and Manufacturing
- Training and Communications

KMS

SOLUTIONS, LLC

CYBERSECURITY & INFORMATION TECHNOLOGY

KMS Solutions, LLC, maintains a Cybersecurity Workforce (CSWF) that is focused on delivering high-quality, mission-critical, cyber/IT solutions designed to meet our clients' needs. KMS cybersecurity teams are involved in the entire systems engineering lifecycle to ensure system security requirements are implemented and sustained. Involved in the initial stages of system development, through the completion of testing, to operations and decommissioning, our CSWF is equipped with the skills to adapt in this exciting and rapidly growing field of technology.

- U.S. Navy Certified CSWF
- Fully Qualified Navy Validators
- Risk Management Framework
- Assessment and Authorization Packages
- Information Systems Security
- SecDevOps Implementation
- Cyber Resiliency

SYSTEMS SAFETY / RMA ENGINEERING

KMS Solutions, LLC, provides engineering for a multitude of systems including torpedo and unmanned underwater vehicle programs in accordance with applicable military standards and instructions. Our engineers analyze system specifications, requirements, and operations to perform necessary hazard and verification analysis ensuring the safe and continued operation of U.S. Navy technologies.

SYSTEMS ENGINEERING & TECHNICAL ASSISTANCE (SETA)

KMS Solutions, LLC, offers end-to-end technology and engineering services and solutions for the U.S. Navy. Looking toward the future of our nation's critical defense systems, KMS is dedicated to its proficiency in:

- SETA support services for Combat, Sensor, and Electronic Warfare Systems
- Mission Analysis, Concept Evaluation, Prototyping, Design Analysis, and Requirements Development
- Integration and Test, Evaluation, Planning, and Execution
- Reliability, Maintainability, and Availability and Systems Safety
- Tactical Advancements for the Next Generation
- Model-Based Systems and Digital Engineering
- Cybersecurity Systems Engineering/System Security Engineering

**WE PROUDLY
SUPPORT
AND SOLVE SOME
OF OUR NATION'S
MOST UNIQUE
AND COMPLEX
ENGINEERING
CHALLENGES.**

KMS

SOLUTIONS, LLC

FACILITIES OPERATIONS / RDT&E

KMS Solutions, LLC, supports RDT&E facilities and activities across the nation including:

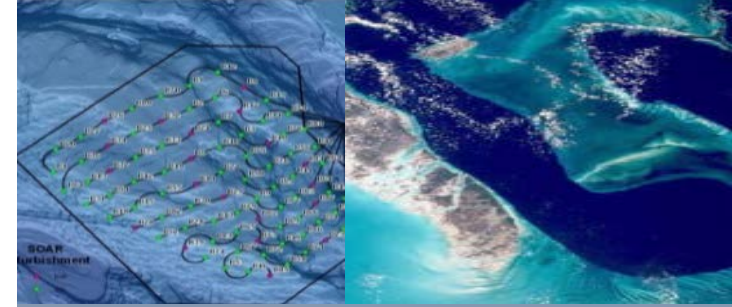

- Bangor Waterfront Operations - RDT&E Facility
- South Florida Ocean Measurement Facility
- Narragansett Bay Shallow-Water Test Facility
- Dodge Pond Acoustic Test Facility

In addition to RDT&E services, KMS also provides operations and maintenance of facilities, pier/power infrastructures, barges, boats, remotely operated vehicles, and machinery as well as many data acquisition and ocean engineering services.

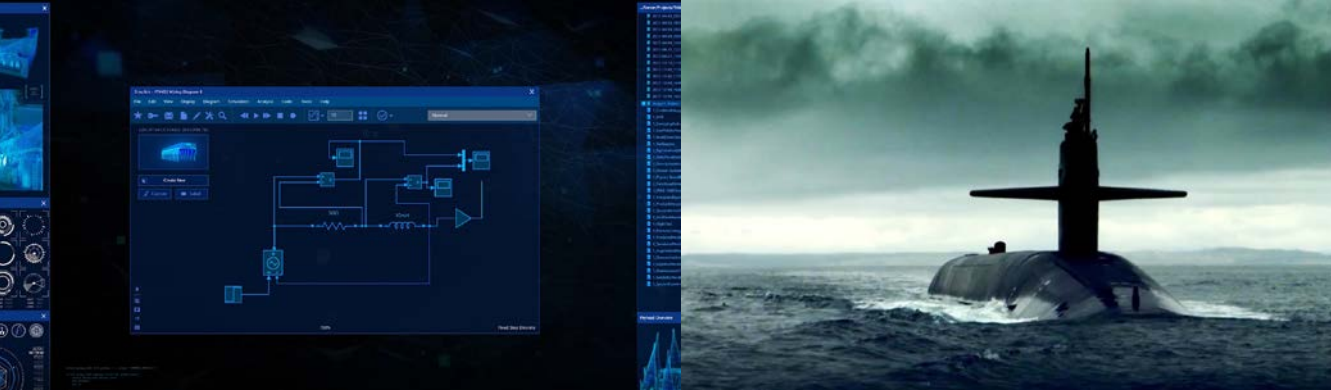

ENVIRONMENTAL QUALIFICATION TESTING

KMS provides rigorous EQT and Survivability Lab Test Support by professionals who are experienced in shock, vibration, noise, climatic EQT, data acquisition systems operation and maintenance, and lab modernization planning. KMS also offers test planning & execution support with EQT tracking for Virginia- and Columbia-class programs and technical editing and configuration management of EQT documentation.

RANGE DEVELOPMENT

KMS Solutions, LLC, is experienced in a wide variety of activities for fixed and portable range development and support, some of which are providing technical and logistical support for the Atlantic Undersea Test & Evaluation Center Undersea Warfare Training Range and the Ocean System Support Activity. Additionally, KMS provides systems engineering, prototyping, and test and evaluation for the Fleet Operational Readiness Accuracy Check Site and Undersea Tracking Range Equipment.

PROGRAM MANAGEMENT

KMS Solutions, LLC, program management services use multi-disciplinary management techniques to successfully execute projects. Our experts understand the requirements and work within the established framework, managerial systems, and processes to achieve project success.

LOGISTICS ENGINEERING

KMS Solutions, LLC, delivers clients with full-suite acquisition and sustainment logistics and configuration management services. Our logistics engineers are experienced in lifecycle support and sustainment planning and activities.

PROTOTYPING & MANUFACTURING

KMS Solutions, LLC, is a member of the Undersea Technology Innovation Consortium (UTIC) designed to provide the U.S. Navy with rapid prototyping and manufacturing technology solutions for the complex challenges they are facing every day.

TRAINING & COMMUNICATIONS SUPPORT

KMS Solutions, LLC, training support and communications services teams are focused on offering quality, mission-critical training and communications support to our client's needs.

We develop mission-aligned training programs and effective communications and change management plans to educate and encourage the cultural adoption of evolving technologies and requirements.
