NAICS Codes Include:

541330 Engineering Services

541519 Computer Related Services and Cybersecurity

561210 Facilities Support Services

DUNS - 602932274

CAGE Code - 43ZC5

UEI - ZQ7JL84XKHS3

Core Capabilities

In-Service Engineering (ISE)

- ISE Support for SSN/SSBN/SSGN and their systems
- SETA support services for Combat, Sensor, and Electronic Warfare Systems
- Mission Analysis
- Concept Evaluation
- Design Analysis
- Requirements Development

Cybersecurity Engineering

- U.S. Navy Certified CSWF
- Risk Management Framework
- Assessment and Authorization Packages
- Information Systems Security
- SecDevOps Implementation
- Cyber Resiliency

Reliability, Maintenance & Safety Engineering

- Environmental Qualification Testing
- Reliability, Maintainability, and Availability Engineering (RMA)
- Systems Safety Engineering

Test & Evaluation

- Research, Development, Test, and Evaluation (RDT&E)
- Facilities Operations
- Range Development and Operations
- Prototyping
- Fixed and Portable Range Support

Differentiators

- Small, Disadvantaged Business
- 18 years of outstanding support to the U.S. Government
- Proven Prime contractor with seven (7) active prime contracts under Seaport NextGen valued over \$200M.
- DCAA-compliant DELTEK Costpoint accounting system software,
- Approved Defense Contract Management Agency (DCMA) Letter
- Top Secret (TS) Facility Clearance, and Secret-level storage
- 99% of our staff hold SECRET Clearance or higher
- Cybersecurity Workforce of 30, including 12 Navy-Qualified Validators
- Our exceptional staff includes more than a dozen former submarine and ship Commanding Officers, Executive Officers, Senior Enlisted Advisors, and Senior Civil Servants

Past Performance

In-Service Engineering: KMS applies our unique and proven talent pool of dedicated and innovative individuals to create specialized, multi-disciplinary teams dedicated to our customers and their missions. We are the **Prime contractor** currently supporting critical ISE contracts for:

- **PEO Submarines (TEAM SUB - SSN/SSBN/SSGN – PMS 390, PMS 392, PMS 394, PMS 396 and S07Q)** In-Service Engineering
- **PEO Integrated Warfare Systems (IWS 5.0)** Engineering Support Services
- **NUWC DIVNPT Code 70** Ranges, Engineering, and Analysis Department Engineering and Technical Support Services

KMS is also supporting significant programs as a **subcontractor** for:

- **PEO Submarines Ship Building Program (SHAPM – PMS 450, PMS 397, SEA 05Z)** Program, Business, Technical and Engineering Management
- **NUWC DIVNPT Code 25** VIRGINIA/COLUMBIA Class Non-Propulsion Electronic Systems (NPES) Rapid Improvements
- **NSWC Carderock Code 425** Towed Array Test Equipment (TATE) Engineering

Cybersecurity Engineering: KMS maintains a Cybersecurity Workforce (CSWF) that is focused on delivering high-quality, mission-critical, cyber/IT solutions designed to meet our clients' needs. KMS is currently executing three-month ATO sprint cycles for the Submarine Warfare Federated Tactical System (SWFTS). KMS is the **Prime contractor** for:

- **NUWC DIVNPT Code 25** Cybersecurity Support for Tactical and Tactical Support Systems
- **PEO Submarines (TEAM SUB - PMS 425 and PMS 397)** Cybersecurity Engineering
- **PEO Integrated Warfare Systems (IWS 5.0)** Engineering Support Services

Reliability, Maintenance & Safety Engineering: KMS provides Reliability Modeling, Data Analysis, RAM Analysis, Reliability Analysis Plans and Reliability Growth Plans services in support of the COLUMBIA Class (PMS 397) and VIRGINIA (PMS 450) new construction programs, small manned submersibles, autonomous vehicles, the 688/688I, OHIO, SEAWOLF, VIRGINIA (in Service), and SSGN class submarines, Foreign Navy, and future USW platforms. KMS is the **Prime contractor** for:

- **NUWC DIVNPT Code 70** Systems Safety and Reliability and Maintainability Engineering Support Services

KMS also provides these service as a **subcontractor**, supporting:

- **PEO Submarines Shipbuilding (SHAPM)** Technical & Engineering Management, ILS and FMS

Test & Evaluation: KMS provides rigorous engineering and technical support for Environmental Qualification Testing (EQT) in the Survivability Test Facility at NUWC DIVNPT, conducting shock, vibration, climatic, noise, inclination, enclosure, and pressure EQT for Non-Propulsion Electronic Equipment (NPES) equipment. KMS' current and past **Prime contractor** T&E experience:

- **NUWC DIVNPT Code 70 / PMA 205 / NAVAIR 5.0** Ranges Engineering and Technical Support Services
- **NSWC Carderock** Atlantic Undersea Test & Evaluation Center Undersea Warfare Training Range (AUTEC)
- **NSWC Carderock** South Florida Ocean Measurement Facility (SFOMF) Technical & Engineering Support
- **NSWC Carderock Detachment Naval Base Kitsap Bangor** Waterfront Operations (BWO) RDTE Support to UUVs/ROVs

KMS also provides these service as a **subcontractor**, supporting:

- **NSWC Carderock Code 425** Towed Array Test Equipment (TATE)
